Amendments to the Specification:

Please amend the specification as follows:

Please replace paragraph [0109] with the following rewritten paragraph:

[0109] The processing unit 151 controls, in accordance with computer software 154 stored in the first memory 153, the operation of the server 111, such as controlling the stream selector 118, the packetizer 116 and the channel coder 117 of FIG. 4. It controls processing of error resilience adaptation requests received from the client 101 and the sending of appropriate video and/or audio streams, stored in the second memory (disk) 152, to the client 101 via the network interface <u>155</u> ~~350~~.
